

BAPTISTE DAUJAT

Web Developer · [PHP / Symfony](#) - [C# / .NET](#)

Pollionnay (69290), France - +33 6 19 87 63 90 - baptiste.daujat@sfr.fr - [linkedin](#)

25 years old · Driving licence + own car · Remote · hybrid · on-site (Lyon area, France)

LANGUAGES *French (native), English (fluent, including technical English)*

PROFILE

Web developer with **5 years of experience** on business-critical e-commerce platforms. Specialised in **PHP / Symfony**, I also work in **C# / .NET** to streamline data exchange between the online store and the ERP.

TECHNICAL SKILLS

BACK-END PHP 8, Symfony 5 / 7, C# / .NET, REST APIs, Doctrine ORM

FRONT-END JavaScript, HTML5, SCSS, Twig

DATABASES SQL, MySQL, query optimisation, batch processing

SEARCH Meilisearch: migration and production configuration

DEVOPS & TOOLS Docker, GitLab, Visual Studio, VS Code, Trello

AI Daily use of Claude Code, using and authoring skills

PROFESSIONAL EXPERIENCE

Back-End Web Developer Prochilab, Bordeaux and Lyon **Sept. 2022 – present**

- Developed back-end features on two e-commerce platforms (Symfony 5/7) to evolve customer journeys and business processes.
- Migrated the legacy search engine to Meilisearch: clear gain in result relevance and speed (from 3 s to 300 ms)
- Optimised SQL queries and set up batch processing to handle substantial data volumes.
- Designed and built C# / .NET desktop applications (Windows Server) to automate data exchange between the e-commerce platform and the ERP.
- Contributed to building our second e-commerce site (front-end, REST API integration and acceptance testing).
- Introduced Docker to align the team's development environments.

Web Developer — Apprenticeship Prochilab, Bordeaux **Sept. 2021 – Sept. 2022**

- Developed Symfony features on the e-commerce solution to improve the user experience.
- Optimised SQL queries to improve site performance.
- Built scripts and utilities improving the link between the e-commerce site and the ERP.

Personal Projects

- [BGM](#): Tabletop RPG world manager, built with Symfony 7 / Docker / Mercure Hub and deployed on a VPS
- [BEJA Nicolas](#): Showcase website for a plumbing and heating business
- [Portfolio](#): Online portfolio, built with the Astro framework
